

# TABLE OF CONTENTS

<b>Introduction to Algorithm Interpretation</b>	.....	1
<b>Background</b>	.....	2
<b>SECTION 1: Patient Navigation</b>		
<b>Algorithm 1A: Triage of Patients during the COVID-19 Pandemic</b>	.....	4
<b>Algorithm 1B: Recommended Work Up of Suspect Cases</b>	.....	6
<b>Algorithm 1C: Contact Management</b>	.....	7
<b>SECTION 2: Primary Care</b>		
<b>Algorithm 2A: Community Based Management of Asymptomatic Individuals with Confirmed COVID-19</b>	.....	9
<b>Algorithm 2B: Management of Mild and Moderate Cases Not Requiring Admission</b>	.....	10
<b>Algorithm 2C: Management of Pregnant Women during the COVID-19 Pandemic</b>	.....	11
<b>Algorithm 2D: Management of COVID-19 Suspects or Cases in Labor</b>	.....	12
<b>Algorithm 2E: Care of the Newborn whose Mother is a Probable/ Confirmed COVID-19 with Mild or No Symptoms</b>	.....	13
<b>SECTION 3: Hospital Care</b>		
<b>Algorithm 3A: Management of Moderate to Severe Suspect, Probable, or Confirmed COVID-19</b>	.....	15
<b>Algorithm 3B: Advanced Cardiac Life Support for Cases of COVID-19</b>	.....	16
<b>Algorithm 3C: Recognition and Management of COVID-19 Acute Respiratory Distress Syndrome (CARDS)</b>	.....	17
<b>Algorithm 3D: Recognition and Management of Sepsis</b>	.....	18
<b>SECTION 4: Special Considerations</b>		
<b>Algorithm 4A: Advance Care Planning</b>	.....	20
<b>Algorithm 4B: End-of-Life Symptom Management of Irreversible Respiratory Failure in COVID-19 Patients</b>	.....	21
<b>Algorithm 4C: Post-mortem care</b>	.....	22
